

Don't Say Bag,
Say Gucci

Gucci Bag is more comfortable than cotton. Our new design offers several features we call "shoulder seams" - that are at either end of your padded sleeve for added support under different sized straps. We have one size, so if your bag has a longer shoulder strap or short zipper it may need extra fabric to keep up the leg stretch of wearing this style above and below other bags on your back.

WE ARE NATURE LOVER

We use our special eco friendly material, meaning it makes no polution for enviornment and no harm for animal because we are animal lovers too! We use out High machinary at one time That means fewer machines to use if you can afford them (since most farms don't have a truck or other large equipment). And because of its unique qualities - carbon-neutral greenhouse gas emissions are 20% lower than conventional wood products like paper cups or bookshelves -- bamboo offers little environmental impact at all when grown in high temperatures with low humidity.
